ATOMic CLOUD

ATOMic Cloud Software

With ATOMic Cloud Software you can track, manage, control, monitor and analyse your real-time supply, materials and equipment. ATOMic Cloud makes it easy to manage your supply chain and administer from your desktop, laptop, any mobile device or browser anywhere, anytime, 24/7.

The secure software and data management solution for demanding applications, allowing you to:

- ✓ Know when stock levels get low, orders are late, or usage patterns change
- ✓ Watch over the flow of items to employees
- ✓ Track items by job, work order, cell, cost centre or any other variable
- ✓ Establish limits or restrictions on access and/or quantities
- ✓ Watch usage patterns and trends, allowing adjustments to be made before a little problem becomes a big problem
- ✓ Best of all, there's no software to install, no servers to buy or maintain and nothing for your IT department to support
